Fourth Annual Production Sale

Saturday, Jan. 28, 2017 • 1 P.M.
At the Ranch near Alton, Kan.
A Tradition Of Trust
Winter Greetings!

We want to send a huge THANK YOU to everyone who attended our 3rd annual production sale, held last January. We, as always, were humbled by the turnout, and the appreciation for our cattle and breeding style. This year we have continued to work with our herd to bring you an even deeper set of bulls and females we believe can make an immediate impact on your herd. With our current cattle markets, it is more important than ever to invest wisely in genetics that will add dollars to your bottom line. Our customers can rest assured the bulls they purchase from us will sire feeder calves with added pounds at weaning, as well as replacement heifers who possess outstanding maternal traits. Time and again, we have customers tell us when comparing the calves sired from Carswell-Nichols genetics vs. other purchased bulls, Carswell-Nichols bulls add significant pounds at weaning.

In our opinion, the strongest seedstock programs are built upon a foundation of solid mama cows, and at our ranch the cows are our #1 priority. Keeping the herd solid and performing at the highest level is our goal every day of every year. Rigid culling for udder quality, fertility and structural soundness ensures there is a solid, problem free cow behind all cattle we market, as well as the key to our performance bulls. You are invited to stop by the ranch anytime to tour through our cow herd and see first-hand the genetics in our breeding program.

The Carswell Hereford herd began 88 years ago, and has stood the test of time while evolving into Carswell-Nichols Herefords. This past year we had the honor of purchasing part ownership in CRR 719T Catapult 109. The growth and power this sire adds is herd changing. We have seen it first hand and are excited to be offering these genetics you, our customers. Also, currently in our sire line up is a Catapult son out of 002 cow from Reed Seedstock, Nichols Reliance 442, a Trust son our son Avery raised and has shown all over the country with great success, ECR Genetic Flow 4368-ET, a Cashflow out of an explosion cow, Churchill A1 4160B-ET, an A1 son out of a 440P granddaughter, MH 9136 J Domino 362 1-ET, he is out of The Great 9126 J bull and a Dakota Bred cow. He has great numbers are we are pleased with the calves from all our herd sires. In addition to natural services, our program relies heavily on both A.I. and embryo transfer programs, which allows us the opportunity to utilize some of the top genetics within the Hereford breed. Our sire selection is far from single trait driven. We choose to focus on well-rounded sires that incorporate balanced EPDs and who’s sons grow efficiently, are easy fleshing and phenotypically sound, yet maintain those core maternal qualities.

In an effort to supply our customers with the most accurate performance data, the yearling bulls in this years sale will have genomic-enhanced (GE-EPDs). This selection tool adds roughly a calf’s crop worth of accuracy into an individual bull’s performance. This will give you, the commercial cattleman, the most accurate and complete picture of the animal’s genetic potential, and allows you to choose genetics that are the right fit for your individual program.

We appreciate your past business and invite you to attend our 4th Annual Production sale, January 28, 2017 at the ranch north of Alton. Feel free to contact us for a sale catalog, or to view our herd anytime.
HOTEL INFORMATION
CAMELOT INN, OSBORNE, KS
(785) 346-5413
COTTONWOOD INN, PHILLIPSBURG, KS
(785) 543-2125

- Examined safe AI to CRR 719 Catapult 109. Due January 28th
As our capabilities and facilities continue to expand, we are pleased to offer more resources to our commercial female buyers. For the bred heifers, we can calve out and rebreed to one of our AI sires or any bull in the Select Sires catalog. For the open heifers, we can develop them and AI to your choice of Select Sire bulls or one of our sires.

*For more details on this service, or to discuss further, please contact Brock at 785-346-6096.*

**Lots 101-140 40 head of purebred Hereford spring bred heifers**
- AI’d to the popular Select Sires bull Connealy Comrade, due to start calving March 1st. Comrade is renowned for calves that calve easily and have rapid growth along with excellent docility. His first daughters are showing tremendous udders.
- Cleaned up with low BW Dalebanks Angus bulls.

**Lots 141-190 50 head of Angus spring bred heifers**
- AI’d to popular Carswell-Nichols herd sire Churchill Spirit 185Y, due to start calving March 1st. Cleaned up with Spirit sons.

**Lots 191-200 10 head of F1 Red Baldie yearling open heifers**

**Lots 201-260 60 head of F1 Black Baldie yearling open heifers**
In Loving Memory
