@gmail.com

The National Hereford Women Organization (NHW) feels that many women across our country do an outstanding job of promoting the Hereford breed and that they should be recognized. One outstanding woman will be recognized at our annual meeting during the American Royal Stock Show in Kansas City. Her name will be added to a new perpetual plaque in the American Hereford Association building.

The NHW Outstanding Woman Award has nothing to do with geography or regions in the United States. Nominations can come from anyone in the Hereford industry and can be submitted through the State Hereford Auxiliaries/ Poll-ette Organizations or directly to the NHW.

### Guidelines for Application

- Nominees must be a member of the National Hereford Women.
- NHW officers and directors are not eligible during their term of office.
- Previous recipients of the AHW Outstanding Woman, NOP Poll-ette of the Year, or NHW Outstanding Hereford Woman are not eligible for this award.

### Application and Selection Process

- Complete application form (see below).
- Submit a written endorsement (Letter of Recommendation) for the nominee to the NHW Outstanding Hereford Woman committee chairperson must be postmarked September 15 each year or received by email or fax by that date.
- The NHW will have a panel of judges evaluate the nominees and choose an award recipient.
  - Selection will be based on the accomplishments in promoting Hereford cattle or the beef industry through the media or other organizations or with their own Hereford operation. Outstanding leadership for this individual may include hospitality, membership, youth activities such as scholarship programs, queen programs, ways and means, publicity and other related activities in the state/national arenas. Other helpful information should include significant information concerning church, civic, professional and other activities. Because only one winner is chosen each year, the NHW encourages nominations to be updated and re-submitted the next year.

The National Hereford Women (NHW) is a women's group associated with the beef cattle industry, specifically the Hereford breed of cattle. Dedicated to promoting Herefords to the cattle buying public, educating future leaders of the Hereford breed and to promoting Certified Hereford Beef, NHW organizes and support a variety of initiatives supportive of the mission. In addition to traditional programs and activities, NHW continually seeks new opportunities to achieve their mission on both a national and state level.
