- Andoyne has become one of the most complete, high accuracy sires of the Hereford breed. He is a true spread bull, ranking in the top 5% of the breed or better for CE, YW, CW, MARb and top 10% of the breed for REA.
- He has proven his double-digit calving ease and impressive growth over and over.
- Bottom line, Andoyne is one of the most reliable herd sires available today.
- The daughters are good maternal females with pigment, fertility and high-quality udders.
- Contact any of the owners for breeding age sons in their production sales.

- Zane is becoming a proven bull that combines great calving ease with outstanding carcass traits.
- He has been proven to be in the top 1% of the breed for UDDR, MARB and REA.
- Zane ranks in the top 1% of the breed for all three indexes.
- We feel Zane is a very complete bull with very few holes. He is siring feminine females and masculine sons. Both with amazing calving ease.
- He is a big ribbed, smooth made, homozygous polled son of X51, with a great disposition.
- We feel that Zane is a tool that can take the Hereford breed to the next level for calving ease, carcass and maternal traits.

- Act. BW 88 lb., ratio 99
- Act. WW 930 lb., ratio 108
- Act. YW 1,240 lb., ratio 104
- Homozygous polled
- Playmaker 78D is stacked with low birthweight genetics and has exceeded expectations at every data point. His 10-year old dam is still getting the job done at Topp Herefords with a picture-perfect udder. 78D has covered large groups of heifers over two breeding seasons and weighed 1,950 lb. on his second birthday. His first calves are hitting the ground now and they are born easy with lots of vigor.
- Owned with Topp Herefords, N.D.

- Wrangler 9001W has done better for us than any bull we've used in recent memory. He is a proven growth bull with excellent carcass data and EPDs. He has already achieved the CHB designation and is well on his way to SOD with multiple daughters earning DOD. Longevity is built in with his dam, a full sister to P606, working well into her teens for Roth Hereford Farm in Missouri.

Five generations of cattlemen raising Polled Herefords since 1910.
Annual production sale – 3rd Saturday in October, every year since 1953.

- **HOMOZYGOUS POLLED!!**
- **Bold, Rugged, Sound** and good footed with extra heel and added performance. Dam is a near perfect uddered 88X daughter that did a tremendous job raising 33B as a 2-year old. A maternal sister was a top 2-year old at NJW in 2017!
- Sired by 10W who we love for his low birth, calving ease, performance, excellent udders and feet.
- Avg. BW on two NJW calf crop 82.5 lb.
- Will be the largest sire group born at NJW in 2018!
- BW 97 lb., Ad.j WW/WWR 756/115, Adj. YW/YR 1236/109

As a yearling

- Porterhouse's calves are very fancy with good color pattern and eye pigment.
- His first daughters are calving this spring. They have picture perfect udders with oustanding milk flow.
- Porterhouse has the following ratios from a deep set of contemporaries: 123 WW, 114 YW, 103 REA and 112 IMF.
- Porterhouse is stout, deep bodied and attractive with 100% eye pigment.
- His dam is a top producing 719T daughter that descends from the Candace 154 cow family.
- With his performance, carcass data and EPD profile, he is hard to pass up.

- One of the most talked about bulls in Denver this year.
- He came up from the Yards to be named Champion Junior Bull Calf in the polled division.
- Loaded with muscle, thickness and style, yet moves smoothly and strides out well.
- Outstanding EPD profile with moderate BW, excellent growth and outstanding carcass traits. CW and MARB both in the top 5% of the breed!
- From a great cow family with excellent quality udders.
- His full sister, pictured below, was the high seller in the 2016 Mile High Night Sale in Denver.
- Homozygous polled.

- Breed leading EPDs with data to back it up.
- In 2015, we nominated 3373 for the National Reference Sire Program (NRSP). He was accepted and used at the Stahly Ranch in South Dakota. His 2016 born calves that were harvested in 2017, easily rose to the top of the contemporary group.
- Data from September 2017 Hereford World:

HCW	978 lb.
HCW ratio	105
REA avg.	14.9
BF avg.	.65
Yield grade	3.7
MB Avg.	SM 50
MB ratio	103

100% of progeny grading choice or better.

- The breed changing bull we are proud to use in our program!
- The ultimate all around combination bull in the breed today:
  - Calving ease – Top 15% of the breed
  - Performance – Weaning and yearling EPDs in the top 5% of the breed
  - Feed efficiency – Highly desirable DMI and proven feed efficiency
  - Carcass weight – Top 1% of the breed
  - REA – Top 5% of the breed
  - Marbling – Top 25% of the breed
  - Milk – Top 10% of the breed
  - BMI$ — Top 10% of the breed
  - CHB$ — Top 1% of the breed
- Homozygous polled
- A leader in his class for growth and feed conversion in the National Reference Sire Program.
- Eye catching style and type.
- He will produce cattle with numbers that are easy on the eye!
- PROOF that you can have it all!

- A polled, proven, calving ease alternative for the Hereford breed and industry!
- He has an outstanding number package that puts him in the top 1% of the breed for TEAT and CHB$ and the top 5% for BW, SC, MM, M&G, UDDR, CW and REA.
- Red Bull's dam is one of the most phenotypically correct females in the Hereford breed and has been one of the top producers for Churchill.
- Red Bull is a rare combination of performance, data and eye-appeal. His progeny is easy calving with explosive growth genetics and they exhibit the perfect pigmentation of Red Bull. His daughters in production have exceptional udder quality.

GERBER 412T ROSY LANE 065K {DLF,HYF,IEF}

- Rampage has extreme eye appeal with complete eye and scrotal pigmentation and is smooth polled. Not only is he a performance powerhouse, but a maternal giant as well, coming from one of the most renowned cow families in the polled Hereford breed, the Gerber Rosy Lane family! His dam should make Dam of Distinction this year with average progeny ratios of 3 at 84 on BW, 3 at 116 for WW and 1 at 116 for YW and has settled first service A.I. each year and has produced 60 oocytes in 2 IVF aspirations!
- Rampage is backed by ideal udders and tons of milk – Rosie 3023A is a 29 MM and grandam X395 is a 33 MM! No active, genetically enhanced, polled bull can match his combination of negative birthweight (-0.5), growth (64 WW), (103 YW) and maternal (26 MM)!
- **Actual BW of 66 lb. (ratio 78)**
  WW of 935 lb. (ratio 121)
  YW of 1,428 lb. (ratio 116)

Semen: $30/Straw; $75/Certificate

- A stand out sense birth, Anchor left his mark on the show circuit this past summer. Catching the eye cattle across the country as an Outcross sire. No About Time, Cracker Jack, 88X or Sensation in his pedigree.
- A true breeding piece with his unique combination of power, mass and eye appeal.
- Backed by a pedigree proven with longevity and functionality. His grandsire is still running pastures at 9-years old.
- Anchor is sure to sire the kind of calves needed for today's show ring but further more will have unbelievable cattle in production.
- "One of the most unique calves I have ever raised." Steve Lorenzen
- The homozygous polled outcross bull you've been waiting for.

- LF Torque made his debut at the 2018 NWSS winning a very tuff class on the Hill.
- His unique combination of length and style and pure power and shape had people talking.
- A true performer, Torque, weaned off a 3-year old dam at 852 lb.
- Like his paternal brother, LF Anchor, Torque has an Outcross pedigree with true performance and added style and look to burn.
- Find another outcross sire with the extension on front and hip and hind leg of Torque, won't be an easy task.
- Semen will be available spring of 2018, contact Adam early to get on the list.

- 51C is one of the most unique individuals in the breed. Thick, stout and sound in a calving ease package with a pedigree of breed leading cows and bulls to back him up. With an EPD profile across the board as stong as his you can't go wrong. First calves all out of first calf heifers ratio BW at 99.5 and WW at 102.

- Lead bull in the Coyote Ridge Ranch pen in Denver and our pick of all the bulls there. A bull that combines style and calving ease with all the bells and whistles. Short marked, pigmented, freckle faced and big testicles, it is understandable why he was a favorite in the yards. Sired by breed leading calving ease sire 028X, out of a top two-year old and a long line of productive cows at CRR.

- 27D has been a favorite of many breeders who have seen him. Impeccable design, flawless structured and power to burn! Many say he is the soundest bull they have ever seen!
- 27D's first calves started hitting the ground in late January and to say we are excited is an understatement! Short marked, stout – while seeing low birth weights out of the first calf heifers we had him bred to.
- Use 27D for calving ease, increased growth and performance with STYLE!!!!
- Natural calf with actual BW 79lb., WW 834 lb. and YW 1,419 lb.

WINNINGS:

2017 Pennsylvania Farm Show Supreme Champion Beef Bull
Hereford Regional/Big East Jackpot Champion Bull
2017 PJHA Preview Show Champion Bull

6 Harbor Pointe
Corona Del Mar, CA 92625

Womanizer
P42945146

Owned with Hansmeier, S.D. Proven sire of champions and high-sellers everywhere! Daughters are low maintenance and with great udders.

Owned with RGR Cattle, Ill. Progeny are stout, long necked and good looking. Our most heavily used natural sire in 2017.

Joe Dirt
P43416538

Hannity
P43726843

Owned with Parker Herefords, Ill. Maternal brother to Womanizer by Catapult. Recently named junior calf champion in Louisville. Extra stout and out of one of the best cows in the business.

2017 NAILE Reserve Champion
Catapult x Cotton
78 lb. BW
Owned with Brent Behrends, Ill.
Full sisters have been National Champions and high-sellers. Better chest and forerib than his popular sire.

Cobain
P43726848

ChaChi
P43320012

Owned with Trihus, Minn. Proven calving ease with killer good looks. Currency son siring low BW, lots of vigor, and high marketability.

Owned with Eubank Farms, Ill. Go-to-sire for calving ease coupled with quality. Dark red, stout and cocky! Multiple high sellers reported in 2017.

Reuben James
43406996

Cat Scratch
P43726847

Catapult x Purple Cotton 40T
Owned with Willow Springs, Ark.
The Denver Reserve Junior calf had a lot of friends in Denver. Full and maternal sibs have been champions at every major show in the country. Big Time good!

88X x Cotton
Owned with Mor-Agra Livestock, Ill.
Quickly gaining market share. Sired multiple five-figure progeny in his first calf crop 88x genetics with more growth, extension and look

Playmaker
43518574

Semen available from owners and major distributors.

PRESIDENT'S LETTER

By Jack Ward, AHA executive vice president

Artificial Insemination (AI) programs give seedstock and commercial cattlemen many advantages. The first advantage is, obviously, access to the most reliable genetics available. In addition, a nicely planned AI program allows cattlemen to develop a scheme fitting their needs like having a shortened calving season or calving heifers early. Finally, an AI program allows producers to customize a breeding program. Maybe you will identify a set of calves that need to be bred with a terminal endpoint in mind, or, conversely, it can allow you to keep a specific set of females together with the replacements as the target. Any way you look at AI, genetic progress can be made, and instituting a structured program will allow you to remain competitive no matter the size of the herd.

AI use in the Hereford breed continues to grow both domestically and internationally. From 2006 to 2016, semen sales as reported through the National Association of Animal Breeders (NAAB) has increased over 130%. More specifically, in that same time frame, AI use by Hereford breeders has increased by 55%. This increased use of AI sits right next to the genetic progress and trends seen in the Hereford breed.

As you review the 2018 edition of the Hereford AI Book, you will notice sires that can be used in multiple ways and some changes to the list of traits.

Over the last two years, the American Hereford Association (AHA) Board of Directors and staff researched and thoroughly evaluated the necessary steps to implement a single-step genomic evaluation using the Biometric Open Language Tools (BOLT) software.

On Dec. 4, 2017, the AHA released its first expected progeny differences (EPDs) using the new genetic evaluation. Along with this, the AHA introduced two new economically relevant traits that are included in an updated set of economic indexes.

The AHA has offered and will continue to offer the most robust and progressive genetic evaluation that will help identify Hereford genetics that are the most profitable for the commercial industry. In addition, the new evaluation is run on a weekly basis to make the EPD values as current as possible. Please this continuously updated information in mind as you review the sires because you could see some changes in the EPD reported in this book versus the actual EPD on the web.

The AHA Board of Directors also unanimously voted last summer to make all animals that have a genotype completed to have a set of Genomic Enhanced EPDs (GE-EPDs). This decision means that all AI permitted sires since September 2017 will be parent verified and abnormality tested and will have GE-EPDs reported. This information certainly gives customers the most reliable set of genetic values.

An AI program is essential to stay competitive, but breeders also need to implement sound management practices including proper handling of semen, a sound health and nutritional program, and proper heat detection or timed breeding.

Hereford breeders must continue to make genetic progress, and utilizing all tools available is imperative to make progress in the areas of economic relevance.

- Frontier is the most unique bull to sell this spring with all the elements of a breed-changer. He is unrivaled in his visual phenotype. He is a well-balanced, heavy-muscled bull that is sound-structured and has the look of a big-time herd bull. He combines all of this with a curve-bending set of EPDs that are unmatched in the Hereford database. He has pigmentation on both eyes and is homozygous polled. Frontier is bull that checks all the boxes
