ABSENTEE BIDDING

If you would like to place a bid on any lot but will not be able to be with us, please feel free to contact the owners, the sale manager or any member of the sale staff. Internet bidding will be available at *www.dvauction.com*.
Chad Gordon, (580) 678-1918

This sale will be broadcast live on the internet.
DVAuction
Broadcasting Real-Time Auctions
Real time bidding & proxy bidding available.

SALE TERMS AND CONDITIONS

Cash or good check will be required for purchase before leaving the premises. Each animal will be sold to the highest bidder, and the auctioneer will settle any disputes as to bids.

HEALTH

A licensed veterinarian will be on hand sale day, and all cattle will be accompanied with proper health certificates for immediate shipment.

GUARANTEE

All registered cattle sell under the recommended terms and conditions of their respective breed association—either the American Hereford Assn., *www.hereford.org*, American Angus Assn. *www.angus.org*, or American Simmental Assn. *www.simmental.org*. The service-age bulls sell as guaranteed breeders and will become the responsibility of the purchaser as soon as sold. The breeding-age females are selling as sound breeders and will carry no further guarantee.

TRUCKING

Trucking will be available sale day. Bulls will be delivered at a minimal cost to the buyer. No free delivery on females. Visit with the owners or the sale manager for more information.

LIVESTOCK INSURANCE

Livestock mortality insurance for your purchases will be available sale day at the clerk's desk.

EPDS

Expected progeny differences (EPDs) are statistical predictions, or estimates, of expected performance of future progeny, not guarantees of performance. The EPDs in this catalog were current at press time. Up-to-date EPDs may be viewed online any time at *www.hereford.org* or *www.angus.org* or *www.simmental.org*.

ANNOUNCEMENTS

All announcements at the sale by the owners or the auctioneer will take precedence over printed material.

All persons who attend the sale do so at their own risk. Neither the owners, the sale manager, H2 Ranch & Cattle Co. nor any individual connected with the sale assumes liability, legal or otherwise, for accidents or loss of property.

Welcome to our 6th sale!

Fellow Cattlemen,

We would like to welcome you to the 6th Annual Hereford Heritage Bull & Female Sale on Monday, February 26, 2018, at the H2 Land & Cattle Sale Facility, located east of Perkins, Oklahoma. This year's offering includes 75 Hereford bulls, 34 Angus bulls, 6 Simmental bulls, 12 Hereford late winer/early spring pairs and 30 commercial open yearling heifers.

We would again like to thank the Hartley family for their hospitality and use of their wonderful sale facility. The bulls and females will all be in place by Saturday, February 24th, for your appraisal of the sale offering at H2.

Our breeding philosophies have not changed, as we strive to breed cattle that are problem free, come moderate at birth, excel in growth and performance plus have strong carcass merit, high fertility, are highly maternal and put it all together in a very eye-appealing package. As you study the catalog, you see the strong emphasis we have put into producing cattle that replicate the philosophies stated above. There are herd bull prospects and proven donors in this terrific lineup of Hereford and Angus cattle.

We will have complete performance and ultrasound data available on all the yearling bulls prior to sale day. You can view updates online at *laytonauction.com* as we get closer to sale day.

We would like to thank you for your interest in our breeding programs. If you have any questions, please feel free to contact any of the owners or the sale manager, as we will be more than happy to answer your questions. We look forward to seeing you Monday, February 26th, at the H2 Land & Cattle sale headquarters in Perkins, Oklahoma, for the 6th Annual Hereford Heritage Sale.

Sincerely,
The Hereford Heritage Group

Join us for lunch sale day!

- A herd bull in every aspect, 730 excels both numerically and phenotypically. His dam was a feature in the monumental Loewen Herefords dispersal and is now a feature donor in the progressive 4B Herefords program. 42Y is one of the stoutest made Tank 45P daughters with an exquisite udder. Her production level speaks for itself, with five progeny posting an average WW ratio of 106.8 and three posting an average ratio of 107.3 for IMF.
- Big time spread in this elite individual sired by the popular performance sire Anodyne. The Anodyne progeny have captivated the Hereford industry with their calving ease, explosive growth and carcass merit.
- 730 posted an individual WW ratio of 121.
- Ranks in the top 1% for WW, YW, top 2% for CHB, top 3% for Marb, top 4% for CW, top 15% for SC, top 25% for Milk.

- The No. 1 CED Hereford bull in the sale! If you are in search of a big-time calving-ease bull with lots of marbling, here is your bull. Double bred 33N on the bottom side of the pedigree.
- Ranks in the top 1% for CED and BW, top 5% for Marb.
- Recommended for use on heifers.

For Reference Only

GERBER ANODYNE 001A

DOB: 1/27/13 • P43408924 • Tattoo: RE GRBR/LE 001A • Scurred {CHB,DLF,HYF,IEF}

CED	BW	WW	YW	SC	MILK	M&G	CW	FAT	REA	MARB	BMI$	BII$	CHB$
+10.8	+0.1	+64	+109	+0.8	+24	+56	+89	–.004	+.70	+.37	+26	+23	+43

Gerber Anodyne 001A has surfaced to the top of the Hereford breed for calving ease, performance and maternal strength. His EPDs reflect his superior genetics, as he is a leader in 12 traits. He continues to sire progeny that come small at birth and explode to weaning and yearling. His progeny are long sided, short marked and sound in structure.

The sire of Lots 4–8, R Leader 6964, has been a standout since he was the $62,000 high selling individual in the Rausch Herefords 2015 Bull Sale. Leader is homozygous polled and a leader in 13 traits. He is a proven calving-ease sire that is maternal with excellent growth and carcass merit.

Validated is a resident herd sire for Birdwell Ranch and was selected by Genex last spring to join their elite Hereford AI bull battery. Validated recently dominated his contemporary group at the Olsen Sire Test. Validated is now the No. 1 parent bull in the Hereford breed for Marb at 1.11 and No. 54 at .97 for REA. No other bull in the Hereford breed comes close to matching this combination. Every Validated son in this sale ranks in the top 1% of the Hereford breed for Marbling EPD.

- Ranks in the top 15% for SC, top 25% for REA.

THE HEREFORD ADVANTAGE PROGRAM

Increase added marketing power and brand recognition with feeder cattle sired by a Hereford bull battery ranking in the top 20% for the CHB$ index.

PROGRAM REQUIREMENTS

- Registered Hereford bulls with transferred ownership.
- Hereford bull battery average CHB$ index* value ranking in the top 20% of the breed.

HOW TO PARTICIPATE

Log on to: https://hereford.org/commercial/feeder-cattle/the-hereford-advantage. Fill out and return form to the American Hereford Association. A sire summary with EPD rankings will be returned to the producer. This information may be used when marketing feeder cattle. The Program logo may be used if cattle meet program specifications.

* The Certified Hereford Beef Index (CHB$) is a terminal sire index that is built on a production system where Hereford bulls are used on British-cross cows with a focus on gain and end product merit.

+7.0	+1.9	+59	+89	+1.1	+18	+47	+71	+.036	+.62	+.35	+27	+24	+30

- The sale features are placed all through the catalog. 9E is a direct son of the powerful 38U donor that commanded $19,500 in last year's female offering. His sire is the Double Seven Ranch resident herd sire Homerun, who is doing a tremendous job siring high-end Hereford seed stock.
- This homozygous polled calving-ease specialist with excellent growth and tremendous carcass EPDs is a herd bull in the making. Flawless in his phenotype, this is a must-see herd bull candidate.
- Ranks in the top 3% for Marb, top 5% for REA, top 15% for CED and WW, top 20% for SC and CW, top 25% for BW and CHB.
- Recommended for use on heifers.

77 MISS X51 38U
Dam of Lot 42

The Hereford Heritage sale bulls and females will be available for viewing at the H2 sale facility, Perkins, Oklahoma, beginning Saturday, February 24th.

The Power of Genomically Enhanced EPDs

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Buying animals that have a genomic profile incorporated into their Expected Progeny Difference (EPD) offers many advantages that allow for quicker breed and herd improvement. Below is a table showing the average increase in accuracy when buying a young animal with a Genomic Enhanced EPD (GE-EPD) versus an animal without a GE-EPD. Similarly, an effective progeny number increase is listed by trait that shows how many progeny equate to a genomic enhancement of a young animal (e.g. yearling). That's right, buying a young animal that has been genotyped is like having 2-17 progeny, depending on the trait. The proof gained on young, non-parent animals, through a genomic enhancement is valuable and greatly mitigates the risk and allows for more directed selection.

AHA GE-EPD

Each animal tested is recognized with the AHA GE-EPD logo.

AHA Trait	Accuracy Improvement	Effective Progeny Number Increase*
Calving Ease	0.09	17
Birth Weight	0.12	8
Weaning Weight	0.14	12
Yearling Weight	0.16	9
Scrotal Circumference	0.17	6
Mature Cow Weight	0.12	4
Udder Suspension	0.17	7
Teat Size	0.17	7
Carcass Weight	0.11	3
Fat	0.08	2
Rib-Eye Area	0.07	2
Marbling	0.10	3

* Effective Progeny Number Increase (EPNI)- EPNI is the difference gained for genotyped animals versus non-genotyped animals.

Since the introduction of single-step EPDs in the Angus breed, K263 has become one of the EPD giants, and his popularity has sky rocketed. He ranks in the top 1% for WW, YW, CW, Marb, RE, $W, $F, $G, $QG and $B. K263 is a very attractive bull with superior feet and legs, and his sons were well received in last year's sale. His first daughters in production have beautiful udders and are making tremendous females.

American Angus Association Genomic Enhanced EPDs

Genomic, or DNA, test results are used to enhance predictability of current selection tools, to achieve more accuracy on EPDs for younger animals, and to characterize genetics for traits that are difficult or expensive to measure, such as feed efficiency, carcass traits in breeding stock or maternal traits in bulls. With the investment in genomic technology, animals who are previously placed into single animal contemporary groups benefit by receiving GE-EPDs rather than interim-EPD calculations, increasing the value of individual predictions. Genomic-enhanced EPDs (GE-EPD) are important because they utilize genomic test results in addition to pedigree, performance and progeny data for increased reliability of an animal's EPD. Depending on the trait, GE-EPDs on unproven bulls have the same amount of accuracy as if they had already sired 8-33 calves.

Percent ranks (1-100) are provided by the American Angus Association to assist in establishing direction of interest for each trait, where a lower % rank is generally considered more favorable. If you are making selection decisions for traits that have an EPD provided by the Association, then the EPDs should be considered the selection tool of choice. The EPD and accuracy account for all sources of information available on the animal (e.g., pedigree, own record, weights/measures, genomic results). Using EPD and genomic percentile ranks separately leads to double counting information and will lessen selection efficiency. With that, the EPD provides the most accurate and up-to-date information, as it is updated every week; whereas, genomic percent ranks only update once a year and are a by-product of the system.

SIMMENTAL BULLS

Fall 2016 Bulls... Lots 110–115

flush brothers – Lots 110–112

Lots 110–112 are flush mate brothers sired by Sandeen Upper Class and out of a Macho daughter out of the immortal Queen 414, raised in the J&J program. 414 has produced countless champions, donors and herd bulls. These brothers are powerful in their design with added body and look.

- **LOT 118A** Heifer calf born 1/24/18 by SHF Drumline 001A D256.

What an offering of three flush mate sisters! Sired by the Genex calving-ease sire Access and out of the donor known as "Angel," who was a feature in last year's sale, commanding $10,000. Angel is a direct daughter of S277, the P606 daughter out of Harland 408's dam.

If you like your females to have rib, volume, hip and super femininity through their front 1/3, take a look here. This set of sisters would be a great foundation for any operation.

- A beautifully designed dark cherry red two-year-old by the performance sire Polled Solution. 58C has a beautiful udder as she has come into production and is a donor in the making. Females of this stature are hard for Double Seven Ranch to part with, but Reggie always wants to offer his best.
- **LOT 119A** Heifer calf born 12/14/17, tattoo 48E, by SHF Impact 001A C63. BW 76 lbs.
