32nd Partners In Progress

Hereford, Angus & Baldy Female Sale

SATURDAY • March 21, 2020 • NOON (EDT)
At the Farm • Wadley, GA
www.ces-predestined.com
Cattle friends,

As a new decade unfolds, it is with pleasure that we welcome you back to our 32nd Partners In Progress Sale. When we gather here each year in March, Spring nears and a renewal to God’s creation starts. A new generation of cattle is born, and we reflect on the changes from the past while giving great attention towards PROGRESS. With the spirit of a new creation, this year we introduce you to a fresh look to Partners In Progress. In the Fall of 2005, Jennifer and I introduced Predestined Cattle Company to the already existing programs of CES Polled Herefords, Smith Angus Farm, and Deer Ridge Farms. Although each program was backed by years of proven reputation, it was time to condense the number of brands in order to help simplify our marketing program. So in 2020, we introduce to you CES Herefords & Angus and Predestined Cattle Company. At CES/Predestined the people and the cattle remain the same, along with our primary goal of being your Southeastern source for quality Angus, Hereford, and Baldy females.

In addition to the new look of our program, Jennifer and I recently took over the marketing for our Hereford division. With the help of our friend Jeremy Haag, we are excited about a new decade and to start integrating new ideas and concepts into our purebred and commercial operation. Unfortunately, some of these new changes were initiated by the retirement of our longtime friend, Jack Hedrick. Jack took over the reins from Howard Goodman prior to my first sale here in 2006. “The word precision is the first word that comes to mind when I describe Jack. His attention to detail is unmatched, his passion for Hereford cattle is contagious, and his commitment to Partners In Progress all these years will forever be cherished. As thankful as we are for the time he gave us, we’re equally grateful for the time he can now give to his family. Thank you, Jack and Howard, for your devotion and friendship all these years!”

We are excited to bring a new batch of genetics for your appraisal this year. We dig deep into our herd each year, with the confidence that the type of cattle we sell are the same type as what we would buy. We are extra excited about our commercial baldies selling this year. This is the deepest set of quality black and red baldies that we can offer. They are the ultimate indicator and testament to the true value of Angus and Hereford genetics, especially when combined.

Please join us in Wadley as we help kick off the first official weekend of Spring. Take a break from the politics of the world and the mis-information that plagues it. Our freedom isn’t free, so thanks to those who still fight for it; for those that want our Nation to abandon its position Under God, thanks to those who still pray for it; and though many seem to forget where food comes from, thanks to those who still produce it. We’re in this together. Thanks for all you do!

Kyle Gillooly
TERMS: Cash or check. Each animal to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids. All cattle are to be paid for by the purchasers during or immediately after the sale and will not be released until settlement has been made. Each animal will be at the purchaser’s risk immediately after the animal is sold.

REGISTRATION CERTIFICATES of the animal will be transferred to the buyer at the seller’s expense. All calves born before the sale will be registered by the seller. Each buyer must be sure to give the clerk his proper name and address for making transfers. AI certificates will not be furnished by the seller on females carrying the service of non-owned AI sires.

EPDS: The EPDs included were current as of Feb. 17, 2020 (Hereford) and Feb. 14, 2020 (Angus). The most current information can be viewed on the individual breed websites.

HEALTH: All cattle selling will have interstate health charts required for shipping into other sections of the United States. All females who are old enough are officially calfhood vaccinated.

PREGNANCY EXAMINATION INFORMATION: All cattle have been pregnancy examined by a competent veterinarian and are called safe to the AI or pasture dates as best can be determined by advanced palpitation. With respect to AI dates, they are not unconditionally guaranteed, other than the fact that they are pregnant.

BREEDING GUARANTEE: Animals sold in this sale are guaranteed by the owners to be breeders, provided they are properly handled and cared for by the purchaser. If any fail to breed, the seller must be notified by Oct. 1, 2020, and for open heifers by April 1, 2020, otherwise the animal is no longer guaranteed in any way. If animal is in sound, healthy condition, buyer may return it to the seller who shall have six months to test it and then, if the animal proves to be a non-breeder, a satisfactory exchange will be made or purchase price refunded. Every known blemish will be called before the animal is sold and no animal will knowingly be sold that is not sound in any way. Any changes in breeding dates will be announced sale day. Any female selling with calf at side is considered to be a breeder with no further guarantee in this regard. Cattle will sell under the suggested terms and conditions of their respective breed association, either the American Hereford Association (www.hereford.org) or the American Angus Association (www.angus.org/Pub/suggested_sale_terms.pdf).

LIABILITY All persons who attend the sale do so at their own risk and the owners and sale manager assume no liability, legal or otherwise, for any accidents that may occur.

ANNOUNCEMENTS at the sale ring by the owners or auctioneer concerning the cattle will take precedence over statements in the sale book.

EPD ABBREVIATIONS: HEREFORD CE (Calving Ease Direct); BW (Birth Weight); WW (Weaning Weight); YW (Yearling Weight); DMI (Dry Matter Intake); SC (Scrotal Circumference); SCF (Sustained Cow Fertility); Milk (Maternal Milk); M&G (Maternal Milk & Growth); CEM (Calving Ease Maternal); MCW (Mature Cow Weight); UDDR (Udder Suspension); TEAT (Teat Size); CWT (Carcass Weight); FAT (Rib Fat); REA (Ribeye Area); MARB (Intramuscular Fat); BMIS (Baldy Maternal Index); BII$ (Brahman Influence Index); CHB$ (Certified Hereford Beef Index). ANGUS CED (Calving Ease Direct); BW (Birth Weight); WW (Weaning Weight); YW (Yearling Weight); Milk (Milk); MARB (Intramuscular Fat); REA (Ribeye Area); SM (Maternal Value); SW (Weaned Calf Value); $S (Beef Value).

INSURANCE will be available through Harding and Harding by contacting the sale cashier when settlement is made.

TRANSPORTATION: Trucks will be available sale day.

ORDER BIDS may be handled by the owners or any of the sale staff. Please feel free to call.

Headlining this year’s Partners In Progress Sale is the pair of direct daughters of the $580,000 Baldridge Colonel. These heifers stem from the $28,000 valued Blackbird 3103 in the Cowboy Logic program. Two full sisters to this duo commanded $10,000 and $6,250 in their sale last April.

They uniquely combine three-dimensional power and eye-appeal with high growth and high RE. We’re excited here at CES/Predestined to have recently partnered with Elrod & Tolbert in a maternal brother to these heifers, E/T Home Town 815, a curve-bending standout that ranks in the top 1% for WW, Foot Angle, CW, and $F and the top 2% in YW, RE, $W, and $B. We’re excited to see what Home Town brings to the table in 2020. When weighing the options of genetic trait selection or visual appeal, neither must be sacrificed with this pair of elite heifers.

BALDRIDGE COLONEL C251 – Reference Sire A
Teaming up with Graystone Farm, we were fortunate to have selected the dam of this sale feature from the 2017 Harvey Lemmon dispersal as one of the elite bred heifers. Mr. Harvey would’ve loved this female, with her unique combination of cow look and power, while being backed up with a powerful genetic profile.

- Ranking in the top 1% for WW, YW, CW and $F, she also ranks in the top 2% for both $W and $B.
- A direct daughter of the $90,000 Stevenson Statement, he was considered to be one of the elite phenotype sons of Jindra Acclaim to sell in 2017.
- This pedigree is packed with performance, and this female will be one to build a family around.
Building a program around cow power is a no-brainer. We seek females that will perform, maintain themselves with minimum inputs, and play the vital role in making the next generation better through proper selection. That’s what we found when we added Lucy 2552 to our program in 2017. She blends brood-cow design and efficiency into a stunning package.

Stemming from the ever-popular Lucy 3829, a daughter of 2552 sold to Spruce Mountain for $16,500 in the same event at Pollard Farms. A maternal sister to 2552 was the $10,000 selection of Wallstreet Cattle Co in the 2017 Stars of Texas Sale, and another maternal sister commanded $10,000 in the 2016 Pollard Sale.

This feature heifer calf is a look into the next generation of CES/Predestined. She’s a direct daughter of Mogck Entice, who is gaining much popularity as one of Enhance’s elite sons. New generation of high growth genetics and top 5% $B.

**PARTNERS IN PROGRESS – EILEENMERE FAMILY**

- We're awfully excited to offer this young genetic gem in this year's offering. Eileenmere 4061 came to us as one of the all-time great bred heifers through the Sydenstricker program, and has developed into one of Gillooly's & Wayview's most prolific donors. Very few cows can offer the true power and depth of rib, and almost gain weight while raising top-performing offspring.
- Reports on Musgrave 316 Stunner daughters in production are really good, and the sons have been highly sought at Musgraves, with last year’s top-selling bull, Musgrave Crackerjack selling for $81,000. This stunning Stunner heifer calf is one to grab hold of on sale day!

• One of our really good sire groups the last two years has been Tex Playbook, and this young Fall heifer is a great example. Her combination of femininity and volume is a true testament to the old genetic saying...like begets like.

• When you consider the confirmation and make-up of Playbook and cows like Coleman Everelda Entense 907, the combination of the two will lead to powerful outcomes. 907 is the best daughter of Final Answer we've ever worked with, and one of the true standouts from the Everelda Entense lineage from Coleman's in Montana. She never ages, and maintains superior fleshing and keeping ability year-round.

• A maternal sister to this young heifer sold in the 2018 Partners In Progress sale to Rylee Closser for $16,000, and another maternal sister sold to Ingram Angus last year for $10,000.

• We are really excited to offer this beauty that stems as another direct daughter of Everelda Entense 907. Thankfully there is one full sister here that remains, or this female would not be leaving. Females like this is what continues to drive the popularity of Payweight 1682.

• Full brothers to this female have been used on virgin Angus heifers here the last two years. Cattle like this offer a great deal to environments such as ours, cattle that can graze efficiently and maintain proper condition. I feel this is one that will be just like her mother for a lot of years, carrying on a look of elegance, volume and efficiency to a whole new level.

• Sells with a young future herd sire at side (Lot 6A) born October 25, 2019 by EXAR DENVER. Tattoo: W62. Reg. NO. 19659501.

• AI on 1/3/2020 to Hoover Know How; Exposed 1/30/20-3/18/20 to Deer Ridge Upshot 4120.

COLEMAN EVERELDA ENTENSE 907 – Dam of Lots 5 and 6

One of our really good sire groups the last two years has been Tex Playbook, and this young Fall heifer is a great example. Her combination of femininity and volume is a true testament to the old genetic saying...like begets like.

When you consider the confirmation and make-up of Playbook and cows like Coleman Everelda Entense 907, the combination of the two will lead to powerful outcomes. 907 is the best daughter of Final Answer we've ever worked with, and one of the true standouts from the Everelda Entense lineage from Coleman's in Montana. She never ages, and maintains superior fleshing and keeping ability year-round.

A maternal sister to this young heifer sold in the 2018 Partners In Progress sale to Rylee Closser for $16,000, and another maternal sister sold to Ingram Angus last year for $10,000.

We are really excited to offer this beauty that stems as another direct daughter of Everelda Entense 907. Thankfully there is one full sister here that remains, or this female would not be leaving. Females like this is what continues to drive the popularity of Payweight 1682.

Full brothers to this female have been used on virgin Angus heifers here the last two years. Cattle like this offer a great deal to environments such as ours, cattle that can graze efficiently and maintain proper condition. I feel this is one that will be just like her mother for a lot of years, carrying on a look of elegance, volume and efficiency to a whole new level.

AI on 1/3/2020 to Hoover Know How; Exposed 1/30/20-3/18/20 to Deer Ridge Upshot 4120.
One of the elite selections of the 2019 Partners In Progress sale was the pick of the ET heifers by Playbook and Barbara N14, going to Pilgrim Angus for $7,500. This was the stoutest flush of heifer calves we had last spring, which allows us to offer two more this year.

As I stated, we sure have liked the Playbook daughters, and feel the maternal advantages he offers is timeless. This pair of females have that same indication, and are backed by generations of highly proven, reproductively sound cattle from the Barbara lineage. N14 sold to our friends, the Matt Walker family of Georgia.
• Tracing back to one of the great brood matrons to walk our pastures, Barbara 4417, this direct daughter of Resource is another individual that’s deep ribbed and high on growth and volume.
• The Barbara Perfection line will never disappoint when adding power to cattle and calf-raising ability. We incorporated more maternal value to her lineage, by adding the high maternal trait sire, Sitz Alpine. She sells with a nice young bull prospect.

• Three Trees Barbara 4417, to this day, is still one of our all-time top income-producing cows we’ve worked with. Producing cattle that would milk and maintain with limited intake, her lineage still impacts the Smith pastures years later. This Traction daughter is no exception.
• This young female has a lot of future ahead of her, and take note of her maternal sister selling in the spring heifer division.
• Due 2/15/20 to Musgrave 316 Exclusive.

• Another descendent of Barbara 4417, this female carries much resemblance to the brood cow design, udder quality and power seen from her dam which is another direct daughter of Density. This long-bodied beauty will calve before the sale, and will impress you with her udder design and femininity.
• Exposed 4/20/19-6/13/19 to DESTIN Forensic T6. Safe.
WHITESTONE SKYMERE W056
- Grandam of Lot 11

CES SKYMERE U84
- Calved: 1/9/19 • 19632518 • Tattoo: U84

DESTIN FOREVER LADY U150
- Calved: 2/28/19 • +*19632182 • Tattoo: U150

- This is a truly unique breeding piece, and awesome young brood-cow prospect. A daughter of the $116,000 EXAR Stud, this heifer combines the volume and power from BC Classic with the eye appeal from the Skymere Family. Her grandam, W056 was our selection from a past Whitestone sale, and then moved into one of Southern Indiana’s finest programs, Hoffman Angus for $7500. Her ability to move effortlessly and maintain her strength of top and balance, is just one of her unique qualities. This one will be fun to mate this spring.

- This daughter of Ellingson Homegrown will be a fun one to watch develop. Homegrown has become a popular maternal sire for Genex while carrying on the importance of foot traits from the CTS Remedy lineage. At sale time, be sure to look up the bulls that we are using to breed the baldies to. Two of those bulls are full brothers to this featured heifer. We purchased her mother as a bred heifer from Elrod & Tolbert a few years ago. Impression daughters will never go out of style. Buy this one with confidence if you’re in search of the kind that read with great visual traits, and the maternal genetic indicators to back her up.

BOYD FOREVER LADY 5125
- Third-generation dam of Lot 12

CES SKYMERE U84 – She sells as Lot 11

DESTIN FOREVER LADY U150 – She sells as Lot 12
We are really excited about the way this year’s group of heifers indicate tremendous growth and performance and in the right size package. Weigh Up offspring offer much in that regard, and this was a powerful mating established in the Potts Bros program.

As you study the maternal lineage of this pedigree, note the combination of Bismarck with one of E161’s best, Rita 4001.

This is one that I hate to let go about as much as any. I truly feel that this is not your typical Rampage daughter. She’s one of the best that I’ve seen, and thought she was in her prime for someone to turn her into a donor.

I love the way that she combines depth and boldness of rib, with her elegance and smoothness of head, neck and shoulder. Combining Rampage and Weigh Up together, this young gal has worlds of future to her, as she reads with solid numbers and will continue to get better with age.

AI on 1/21/2020 to Hoover Know How; Exposed 2/5/20-3/18/20 to Deer Ridge Upshot 4120.
• Check out the birth to yearling spread on this Niagara daughter, and study her length of body and structural integrity. These are the kind that herd bulls descend from. The Niagara offspring continue to build popularity in the purebred and commercial sectors, and when you combine Upward with cows like Precision 810, the genetics are built to last.

• This is a select group of yearling heifers we put together this year, and it's females like this that we feel are the kind we need more of.

• Reading with exceptional numbers and built for performance, I was really hoping for a heifer calf when I saw it for the first time… however, don’t pass up this good young herd bull prospect, by the ever-popular BUBS Southern Charm.

• Purchased as one of the top bred heifers of a past Britt sale, this Ten X daughter will out produce herself. Really good uddered and straight-lined, this young female still has a world of future to her.

• Al on 1/12/2020 to Tehama Tahoe B767; Exposed 1/30/20-3/18/20 to Deer Ridge Upshot 4120.

- This classy Top Game daughter combines calf-raising ability with a powerful set of genetic data across the board. She raised one of the top Fall heifers here last year that will continue her legacy, which is the only reason to let this one go, now. However, I’m not convinced that this special heifer on her side by Southern Charm isn’t her best calf to date. One of the top pairs of the sale when you simply try to put all the basic fundamentals together. Why chase extremes when you can get females with above average traits that prove their true value in making the next generation better? Study this pair of genetic giants closely.  
- Al on 1/20/2020 to Hoover Know How; Exposed 2/5/20-3/18/20 to Deer Ridge Upshot 4120.

Calved: 11/25/16 • Tattoo: S93
COW

BRITON BLACKCAP 0117
++16798384 BRITTON PRIME TIME 5282

• A solid foundation female from the Blackcap family going back to Sherrod Blackcap 0190, the daughter of the ever popular 2114 and granddaughter of Scotch Cap 867. This female was in dam when purchased from our friends at Britt Angus, and is one of the really good Journey daughters we’ve worked with.
• Solid genetics sell here, especially when you add that of Southern Charm to the bull calf.
• AI on 1/20/2020 to Hoover Know How, Exposed 2/5/20-3/18/20 to Deer Ridge Upshot 4120.
• Femininity is a description that we will never grow tired of at Partners In Progress. Females need to look like females, udder quality shouldn’t be loosely defined, and structural integrity shouldn’t just be something we all complain about but don’t improve. Females like S2 have a look that’s unique, and back it up with a solid foundation. I see the growth and performance from Discovery, yet Hoover Dam adds that nice touch of power to her. Hoover Dam will go down as one of my favorites. They are cattle that are hard to pick apart, and I feel you’ll see his legacy in daughters for many years.

• AI on 1/24/2020 to EXAR Guru 8719B; Exposed 2/5/20-3/18/20 to Deer Ridge Upshot 4120.

• There’s a lot of value to this Stunner heifer calf that sells along side her dam. When you start to piece this pedigree together, a little excitement starts to stir.

• This is a nice maternal and functionally-built female that blends together Connealy Courage with a high RE son of Connealy Forward, Sydgen Liberty. Together, this mother-daughter duo will add muscle and still maintain the usefulness of maternal valued traits. Another nice heifer calf out of our Charlo son, 5259.

• AI on 1/12/2020 to Musgrave Sky High 1535; Exposed 1/30/20-3/18/20 to Deer Ridge Upshot 4120.

• A beautiful heifer calf by our herd sire, McCurry Charlo 5259, back to a direct daughter of Connealy Courage 25L and the Blackbird family on the bottom side.
This awesome 5-year-old calved the day before pictures, and she was in her prime. To put it simply, this cow is beautiful. She’s got a front end that goes on forever, and her top is as straight and level as you could build one.

Her mother has been a favorite of mine for several years, and is an example as to my appreciation for Upshot-bred cattle. Her 3rd generation dam was one of the first donors I worked with here, and was a powerful, fault-free T510 daughter.

Don’t miss this STOUT Sky High heifer calf on her side. This is the kind of pair that you’ll want to buy, regardless if you have a catalog in hand or not…the kind you say to yourself…”they’re going home with me!”

Another power cow of the sale offering that I sure would’ve like to have kept, especially after her Density daughter was born, which will likely be one stout brood cow for the new owner someday.

A descendent of Green Garden’s Protet family, N155, is feminine yet robust in her center 1/3. She’ll get the job done raising one, and again, I could go on in detail about the type of maternal factories that stem from SAV Density, but this will be a pair for you to evaluate in person.

An outstanding daughter of the $55,000 Genex sire, SAV 004 Density 4336, back to the Green Garden Protet family on the bottom side.

- A nice combination of the power from Connealy Union with the elegance of the Skymere W056 family, this 4-year-old will provide a lot of basic fundamentals of the quality calf-raising ability and efficiency, often seen in the SAV Pioneer bred cattle.
- Due 2/22/20 to VAR Signal 7244.
We lead off our Hereford division this year with a new family and it is loaded with power. We introduced N155 to our ET program in 2017 and she continues to amaze us each year as she matures with pure udder quality and powerful physique. Headlining the lot 1 position are her two ET heifers by Provident. We think these heifers have unlimited earning potential. N155’s first natural calf went into our ET program last year, and we feel these spring yearling heifers will earn the same status for the new owner.

- Sire of Lots 103A and 103B
- Continuing a legacy of true maternal value, these direct daughters of Sunny K187 should be unique additions to any herd. The power of Bottom Line 206E is evident through his offspring, as seen in the sons that sold at Topp Herefords in February. These heifer calves have elegance and cow power written all over them. K187, owned with Blackwater Cattle, has always been highly fertile and works to every bull mated to her. One of our best-bred heifers at CES/Predestined is a Pioneer out of K187, and her full sister sold to our friends at Barnes Herefords last year. These heifers should be fun to make mating selections for.

- Sire of Lots 103A and 103B

www.ces-predestined.com
• This mating has already produced what could be our next up-and-coming herd sire prospect. K187’s son Finance R1, has done an awesome job at making moderate, eye-appealing cattle with extra dimension. His full sister was flushed here last Spring. These calves will have the ability to blend udder quality, eye appeal and carcass merit all in a moderate package. The blending of Leader with K187 is quite a unique opportunity to add value-based genetics to your program. Calves due February 2020.

- This choice lot of featured sale attractions should still catch your attention several years after their introduction. In 2015 we sold a pick of the flush full sister to Colbert Polled Herefords for $10,000. In 2016 we sold choice between 2 more heifers, in which Stonegate Farms selected both for a total of $15,000. Bob Neligan can share with you what kind of bulls those females are producing, and the data that’s been returned from Edisto and Tifton bull tests. A full sister remains here that will carry on this powerful mating of 2 legends, Mr. Maternal and E195.

- Lot 108A – Due 2/23/20 to NJW 79Z 22Z Heavy Duty 72C ET.
- Lot 108B – Due 2/22/20 to NJW 160Z 10W Whit 33B.

COW

- Here’s a very striking heifer from a beautifully built daughter of Ovation that we own with Pelton Polled Herefords. A direct daughter of H Redline, who is a high growth, high RE son of Full Throttle. Look at the elegance of her front end, in combination with smoothness of skeleton and length of body. This female reads with powerful genetic indicators, and tops it off with off the chart eye-appeal.

- Last year our friends at Green Meadow Farms purchased ½ interest in Dixie N78. This year we feature a November ET daughter of hers by the popular Frontier 174E. Again, with strong attention towards maternal strength and udder quality, N78 is a moderate, thick, well-balanced brood cow. You’ll like this red-eyed November calf. We think enough of this line that her maternal brother that sold on the side of the cow, is cleaning up our heifers this year, and another maternal brother was used last year.
CES MEREDITH 16A P170 ET – She sells as Lot 111

Calved: 3/1/15 • P44109860 • Tattoo: BE P170

• This one should grab your attention. Blending balance and femininity with superior udder design, this direct daughter of American Hereford combines the popular 218 and Meredith cow family and was purchased by AbraKadabra in a past Partners In Progress. A maternal sister was a popular attraction at Walker’s Foundation For The Future Sale last year, commanding $10,000. Alongside of P170, sells a nice Heavy Duty daughter that will carry on the power and beauty of this Meredith lineage.

• AI on 1/20/20 to NJW 79Z Z311 Endure 173D ET

CES MEREDITH 156T R144 – Maternal sister to Lot 111

CES MEREDITH 218 G146 ET – Dam of Lot 111

www.ces-predestined.com
I feel redundant this year talking about femininity and udder quality. Two pieces that make up a really big puzzle, yet for us those two pieces are just about as important as any. I can sacrifice a lot of things in cattle, but I won’t give up structure and udder design. This young gal brings those fundamentals together in a beautiful moderate package. Stemming from one of the great flushes sired by Hale E92, this dark red beauty is elegant from every angle you look at her. Her mating flexibility is unique, and because of her balance of multiple traits, should work with a number of bulls. I feel this is one of the great pairs of the offering and truly a future donor for the new owner. Nice bull calf by TH Frontier.

- This direct daughter of Undisputed comes with a lot of power and is backed by proven genetics.

A daughter of the brood matron 7Y that was a member of our ET program, selling last year to Lewis Hereford Farm. 7Y has produced a $20,000 bull calf, Walker JH Captain and a pick of the heifer crop at Walker’s, commanding $17,000. High performance, coupled with powerful carcass merit lead this young pair of cattle to a promising future.

Sells with a fall Mandate bull calf at side. Owned with K-One Cattle and Lewis Hereford Farm

AI on 1/22/20 to Innisfail WHR X651/723 4013 ET

• Make sure you mark this youngster down. As we shared in the past, Burst The Bank was one of the most consistent sires we’ve ever worked with. His ability to pass down muscle to his sons and eye appeal to females was very unique, and they looked alike. We unfortunately lost him last year, but thankful to have a maternal brother to him working in the herd. S87 was part of the lead off choice lot 2 years ago, and the other heifer was selected. Now is your chance again to purchase this powerful girl, and better yet, she’s now in production. Sells with a good-looking December heifer calf that’s line bred Burst The Bank, descending from the great Dixie N78 Donor.

• Direct descendants of a past Lot 1 in Partners In Progress, these two 755T daughters are full sisters to a couple of sale features we highlighted in last year’s offering. A donor now for Stonegate Farm, Bloom H100 is a genetic jewel when it comes to passing down the torch for superb udder design. At 11 years of age, she’s still producing and still raising calves, and working hard to continue her problem free lineage. These cattle are balanced-trait, easy doing cattle that remarkably make the next generation better. The Lot 116A heifer calf by Sensation 2504 is a stout baby, and will likely be better than momma. Lot 117A heifer calf by Mandate was just a peanut when she was born, but her elegant look at such a young age is a true reflection of H100.

- Here is the first natural calf out of donor N132 that sold last year in Partners In Progress to Lewis Hereford Farm of Louisiana. In 2018, two daughters of N132 and Heavy Duty sold to TRM for $8000 and Lewis for $6500. The Gerties’ have an impeccable look and always show off in the pasture. Study the WW and YW of this gal. Great performance to this Strategy daughter.

- Exposed to CES Mr Vic 156T P50: 5/7/19-7/20/19. Confirmed

**DKM 1122 HEREFORDQUEEN 34Z 775**
Calved: 3/16/17 • P43777019 • Tattoo: RE DKM/LE 775

- What a powerful blending of cow makers such as Mr Hereford, Tank 48W, and P606. This delightful brood cow prospect was purchased as one of the elite bred heifers at Parker Bros, and I think you’ll like her as a 3-year-old.

- Exposed to CES Mr Vic 156T P50: 5/7/19-7/20/19. Confirmed

**CES RED CARPET 200Z R121**
Calved: 2/16/16 • P43825145 • Tattoo: BE R121

- Here’s a low birth, high milk daughter of Churchill Red Bull that descends from a daughter by P70’s brother, Exclusive. This is truly a fault-free, beautiful profiling 4-year-old that will get the job done this spring.

- Exposed to CES Mr Vic 156T P50: 5/7/19-7/20/19. Confirmed

**CHF CHRISTINA 4003**
Calved: 2/20/14 • P43495252 • Tattoo: LE 4003

- This dark red, long bodied Handshake daughter puts a lot into her calf each year. Her heifer calf in Walker’s 2017 sale was one of the Elite. Excited to see what the combination of her and Mr Vic P50 do together.

- Exposed to CES Mr Vic 156T P50: 5/7/19-7/20/19. Confirmed

• Nice young female that puts together genetic value with phenotypic excellence. This Strategy daughter stems from the awesome GV 579 Victoria 9710. This females grandam was the result of embryos purchased from our friends at McMurry Cattle in Montana. Bismark bred a lot of power into cattle, especially when combined with 9710. Power backed by performance.
• Exposed to CES Mr Vic 156T P50: 5/7/19-7/20/19. Confirmed

- Very rare embryos, as you’ll never have the opportunity again to find Julia eggs. A full sib to these embryos was a popular show heifer for Tyler and Sarah Grace Hunter, that now resides at Stonegate Farm. I saw her in December, and she is amazing! Don’t miss these.
