- If you have been around our program at all, then you will know the impact of "Montana" (376A) and the amount of powerful herd bulls she has produced. Dark red, big-footed, balanced and packed full of red meat, we think H45 can do a lot of good for anyone wanting to make balanced trait, fundamental cattle. Half and full sibs have topped our sales and are now working in herds across the country. We used a three-quarter brother by Upgrade as a walking bull and now have daughters in production, which is why this yearling is selling. Buy into the cow family and the ability to produce stout, eye-appealing cattle with added performance and marketability.
- Selling three-quarters interest and full possession.

- While it has become the tradition around J&L to offer one of our top herd bull prospects every fall, we feel the female behind this year's edition makes this prospect even more exciting. J6's dam, to put it bluntly, is just flat good stock and one of the most powerful bovines to ever walk at J&L. We thought highly enough of her to not only flush her as a two-year-old, but also show her as a pair this summer. A meat and taters type of bull prospect, with the backing to be heifer-safe. We think he could set a "Precedence" in making high-power females. Scurred.
- Selling three-quarters interest and full possession.
- Act. BW 68 lb. CE-1

- From the productive and proven 9438 cow family, E65 is the picture of what we strive to produce. Big-bodied, easy fleshing, balanced made, gorgeous uddered and productive, we wish we could have a few more of E65's kind around. Her first calf was sold as a herd bull prospect to O'Diam Herefords last fall and this year's prospect is the right kind again. We think that her mating possibilities are abundant and make her a prime candidate to enter the donor pen for her new owner. She was flushed once this spring and generated 15 Grade 1 embryos.
- Retaining one future flush at buyer's convenience and seller's expense with a minimum of six embryos.
- Pasture exposed from May 24 to July 31, 2021 to JLCS Z311 Applause D21, Reg. #43672005. Pregnant by blood test Aug. 29, 2021. Halter broke.

- We wish we had a few more of these Munson heifer calves around, as they all have the right kind of bells and whistles. This favorite is dark red, red-eyed with the stylish brood cow look. She could wear a show halter, but her best days will be as a productive brood cow that has the EPD profile to make both females and profit-driven herd bulls.

- A mouthwatering two-year-old bred by our good friends at Grassy Run. Jeff made the decision to purchase her dam as a bred heifer and he now looks incredibly smart for doing so. She traces back to the immortal MSU 54N, who is the dam of Revolution 4R, amongst others. Phenomenal udder quality, big-bodied, stout, easy keeping and easy on the eyes, she is the kind we could afford to have a lot of.

- A little bit different pedigree for us, but a super productive two-year-old who has done an outstanding job raising her first calf. Her sire was a previous high seller from the famed Holden herd and was purchased by the Fishers to infuse another set of power cows into their horned program. - Our junior herd sire and the featured service of our 2021 J&L Cattle & Guests Sale offering, BERG 53D 2nd Gen Journey 36G, is a son of NJW 84B 10W Journey 53D. Journey 53D was the $50,000 bull in the Ned and Jan Ward sale. In the 2019 Mead Cattle sale, we were fortunate to purchase Lot 52, bred to Journey 53D. She calved Dec. 11, 2019 with BERG 53D 2nd Gen Journey 36G. BERG 2nd Gen Journey 36G is long-bodied, dark red, eye pigment and very athletic. He has a normal DNA profile and is heterozygous polled.
