PRODUCTION SALE

FALL CLASSIC

2021

B&D Herefords and Angus

Over the past 50 years, we've built a Hereford and Angus herd to be proud of. We believe this year's Fall Classic Sale features bulls that we believe will be excellent additions to any herd.

The Hereford bulls include genetics from some of the top Hereford bulls in the country, including CL 1 Domino 215Z, who was currently leased by Select Sires and ranked in the top 20% of the breed in 13 different EPDs. Hereford sires include top-selling bulls from Holden Herefords and Cooper Herefords. There are several exceptional bulls out of sires like HH Advance 6319 and HH Advance 6065.

On the Angus side, SAV Herd Book 6143, a standout early son from SAV Pedigree 4834, brings pedigree excellence, phenotype, performance, EPDs and cow family strength together in perfect harmony. There are also several bulls out of Bobcat A23, SAV Western 5723, and LD Capitalist 316.

We will be using video during the sale and all animals will be penned on site and available for viewing November 15-16. All animals in the sale have been tested and verified free of AM, NH, OH, DD and CA for Angus and IE for Herefords. All of the bulls have been genetically 50K tested.

If you have any questions regarding the sale or our program, please don't hesitate to contact us. Many thanks to our customers and friends for your continued support of our program. The sale will be available via DVAuction.com, but we also look forward to hosting you on site!

Sincerely,

Craig Beran

Due to the strict quality cuts we do at weaning, our yearling weight ratios may be skewed. We strive to provide the top bulls which means the low ratioing weaning weight bulls are cut, leaving just the top tier to be ratioed at yearling.

- This sire offers true genetic excellence with 10 EPDs and indexes ranking in the top 25 percent of the breed and seven of those within the top five percent of the breed. A power and performance sire with added growth ranking in the top one percent of the breed for both WW and YW EPDs. Offers a great combination of phenotype, performance and end-product value. His high MARB EPD makes him truly unique among Line One cattle, yet he adds carcass weight and ribeye area to create cattle that generate premiums on the grid.
