

2,488 Dams of Distinction Honored

The Dams of Distinction program recognizes superior cows in the breed and the cattle producers who manage them based on data submitted to the American Hereford Association (AHA). Efficient, fertile and productive females are the foundation of the most successful cow herds.

A cow receiving the Dam of Distinction honor meets the highest standards of commercial cattle production. The cow must do her job, but her owner must also manage the herd correctly to give her the opportunity to excel.

Only a few active cows are recognized. All females have the potential to be a Dam of Distinction, but only a small percentage fit the job description of an ideal cow year in and year out. For more information about the Dams of Distinction Program, visit Hereford.org, hover on “Genetics” and select “Recognition Programs.” Females attaining the Dam of Distinction status are recognized with “DOD” after their names on the AHA website.

South Dakota was home to 320 dams recognized in 2024, the most of any state in the nation. A list of the top 20 states and top 20 breeders with the most females recognized follows.

19	Huwaldts Herefords, Randolph, Neb.	20
20	Alfred Schutte & Sons, Guide Rock, Neb.	20

To be honored as a 2024 Dam of Distinction, a cow must have:

- 1) Weaned a calf born since Jan. 1, 2023.
- 2) Produced at least three calves.
- 3) Initially calved at 30 months of age or less.
- 4) Had an interval between the first and second calves of no greater than 400 days. In addition, a 370-day calving interval must have been maintained after her second calf. The longer initial calving interval allows breeders to calve 2-year-old heifers prior to the mature cow herd.
- 5) Had weaning records submitted to the AHA Whole Herd Total Performance Records (TPR™) program for every calf produced that was born before June 30, 2024.
- 6) Had a progeny average 205-day adjusted weaning weight ratio of at least 105.
